SUMMARY

Two to four lines positioning the candidate for this specific role. States the primary discipline, the technologies actually used to practise it, and where that experience came from. Every technology named here must also appear in TECHNICAL SKILLS, and every claim must trace back to a real role or project.

TECHNICAL SKILLS

Languages: Comma, separated, list
Frontend: Comma, separated, list
Backend: Comma, separated, list
Databases: Comma, separated, list
AI Engineering: Comma, separated, list
Testing & Validation: Comma, separated, list
Developer Tools: Comma, separated, list
Engineering Concepts: Comma, separated, list

EXPERIENCE

Job Title | Organisation *Location | Mon 20XX – Mon 20XX*

- First bullet: what was built, the stack it was built with, and the scale or scope it ran at. Leads with a verb. Numbers appear only where a real number is known.
- Second bullet: the harder part of the same work – the integration, the performance constraint, the thing that made it non-trivial.

Job Title | Organisation *Location | Mon 20XX – Mon 20XX*

- First bullet, as above.
- Second bullet, as above.

PROJECTS

Project Name | One-line description of what it is *Live | Code*

- First bullet: what the project does and the stack behind it.
- Second bullet: the technically interesting part.

Project Without A Deployment | One-line description of what it is *Code*

- First bullet, as above.
- Second bullet, as above.

EDUCATION

B.Tech in Computer Science | JK Lakshmipat University, Rajasthan 2022–2026 | CGPA: 7.2/10
